

“The Advantage of Having the Bible”

Romans 3:1-8

Those who have been raised in a home with spiritual foundations and the teaching of Scripture have an edge over those who were never exposed to such benefits. The advantage of having access to the Bible is enormous, but it is not a fail-safe. Paul addressed the Jews who were caretakers of God's own words, and much can be applied to anyone who has the advantage of revealed truth but fails to take it to heart.
